Dear Susan,

The CTT is pleased to inform you that your application for a Round 5 Pedagogic Intervention Grant has been approved. Congratulations!

The funding approvals committee was most impressed by the high quality of your proposal. We would ask that you do two things:

1. Please send us your photo in a .jpg file so we can celebrate your grant on our website. Email your .jpg file to [ctt-grants@unl.edu](mailto:ctt-grants@unl.edu)
2. Please forward this email to your head of department, request that they read the paragraph below, then reply to [ctt-grants@unl.edu](mailto:ctt-grants@unl.edu) with a cost object.

'Your reply is confirmation that the applicant and department head have reviewed and understood the CTT Teaching Grants Description, including eligibility, requirements and expectations associated with funding, as detailed on the CTT application materials. Recipients are expected to fulfil the aims and objectives detailed on their applications, meet deadlines and milestones, and report and disseminate in the ways described there. Email confirmation also indicates agreement with and confirmation of all information provided in the grant application. It is the applicant's responsibility to comply with external and internal guidelines and procedures governing research, should this be necessary. Funds will be made available once the CTT receives your email.'

Many thanks. We are delighted to support this excellent project.

Best wishes,  
Eyde
